**Portland, Oregon
September 4, 2009**

Terrytoledo, a Portland-based artist, has released his debut comic book, *Sid Love*, which features 110 pages of the author's original illustrations and copy heralding the need to resolve a variety of America's social injustices.

Written in the popular choose-your-own-adventure style, *Sid Love* allows the reader to assume the role of the protagonist, Sid Love, a hard-working female who unravels a gripping plot involving a secret underground society, human cloning, and a harrowing conflict of morality. *Sid Love* offers 25 alternate endings, including audio endings written and produced by Terrytoledo (available as MP3 files at terrytoledo.com/sid).

The soft-cover book is published through Lightning Source and available through terrytoledo.com, amazon.com, and barnesandnoble.com. Sample pages can be found at terrytoledo.com/sid.
